Alexandria, Virginia 22313

Ladies and Gentlemen;

I have had a Continuation-In-Part to US Patent 5,983,068 in process with your offices since November 1999. At one point your examiner awarded this Patent but your management saw fit to stop the award and divide the CIP into three components 09/435,657 and Divisional's 20040165890 and 20040165589.

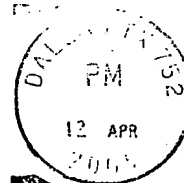

CIP 09/435,657 had an action in August 2004 to which we responded in November 2004. Since November this file has been stuck in you electronic digitization process and has not reached the Docket of the examiner, Pernell Jones. Please take action to accelerate the re-evaluation of this patent application.

Sincerely;

John Tomich
